A mom is a treasure

*The mom walks into the room a light shining on
her like a halo*

*Her hair is in perfect condition from the Dyson
hair dryer*

*Matching nails, earrings and 'fit' for the day
In the morning She 'cooks' breakfast and talks
and walks with sass*

*She knows more cool slang than any other person
within a 10 mile radius*

*After dropping her kids at school she eats with
the rest of her 'squad'*

*She makes light hearted jokes and they all laugh
at the joys of parenthood*

*She comes home to read or watch a zombie movie
because what elegant lady doesn't love a good
zombie movie?*

*When the movie finishes she goes to pick up her
kids from school*

*She 'slays' at teaching her kids because building
their character is no different from building lego*

Being a mom looks easy on the outside

A glamorous lady with a glamorous life

*But on the inside a mom is so much more than
pretty hair and fragrant perfume*

*She supports her kids, her fortunate friends, her
family.*

*A mom is an absolute 'girl boss', an idol for the
people around her.*

*And she should appreciate everything she does for
those around her.*

A mom is a treasure.
